

“PCIM Europe 2018” had finished successfully. Thank you for visiting the booth of
A.L.M.T. Corp.

A.L.M.T. Corp. will participate in PCIM Europe, scheduled on 5-7, June, 2018.
This exhibition is international exhibition and conference for power electronics, intelligent motion,
renewable energy and energy management

There we will exhibit mainly heatspreaders, including Mg-SiC and Ag-Diamond.

PCIM Europe 2018

- Dates : 5-7, June, 2018
- Venue : Nuremberg Messe (Nuremberg, Germany)
- Stand : Hall 9-555 A.L.M.T.Corp.

Main Exhibits; Heatspreaders

Mg-SiC

Characteristics: High thermal conductivity (230W/m · K) and light weight material.

Better heat dissipation with excellent shape stability

Applications: IGBT Modules for electric railway, industrial machinery and automotive (HEV).

Ag-Diamond:

Characteristics: Thermal conductivity is more than 600W/m · K and lower Coefficient of Thermal
Expansion than Cu. Capable of general silver brazing (@800°C).

Applications: Heatspreaders for high performance ceramics packages and SiC/GaN devices

For further detailed information about the exhibition, please refer to
