

## **A.L.M.T. Corp. will exhibit at JIMTOF 2022**

This year, we will exhibit at JIMTOF 2022.

We would be grateful if you would visit our booth.

—Information about the exhibition—

Date/time : November, 8 ~ 13, 2022  
AM 9:00 ~ PM 5:00 (AM 9:00~PM 4:00 on last day)  
Place : Tokyo Big Sight building  
A. L. M. T. booth : West Hall 4F 4018

### **Exhibit products and description**

#### **【 Overview 】**

Diamond/ CBN grinding wheels and cutting tools/ Diamond rotary dressers/  
Diamond dies/ Tungsten and Molybdenum products

#### **【 Exhibit products 】**

Tools for components of EV and HV/ diamond rotary dressers for various bearings/ diamond turning tools for ultra-precision machining/  
grinding wheels for tool grinding/ tools for turbine blades of aircraft as well as power generator/ grinding wheels for wafer for semiconductor

#### **【 Description 】**

The energy saving production process can be achieved by high-efficiency machining and long tool life which is a characteristic of the diamond/CBN tool. This will contribute to the realization of a carbon neutral.

At the booth, diamond/CBN tools will be exhibited.

Our products that are useful in a variety of industries such as grinding wheels, cutting tools, dressers, and dies including new products can be viewed.

In addition, we have a process consultation corner provided by staffs from the Customer Solution Center which is a machining assessment and analysis division, and we will offer consultation to our customers on how to resolve machining issues.

-Thank you-
